BLACK FOREST PARK

EUROPEAN RED DEER

2020 SIRE SALE

blackforest.nz

**MCDONALD ROAD OUTRAM
14 JANUARY AT 2PM
VIEWING AND REFRESHMENTS
FROM 1PM**

Catalogue Updates

There may be changes to the line up of deer on offer as they develop further. Details will be made available at **blackforest.nz**

We will also be offering lines of stud and elite commercial hinds. Details of these will be also be at **blackforest.nz** and made available on sale day.

BLACK FOREST PARK

Dear Friends & Fellow Deer Farmers,

It gives us pleasure to present our 2020 sire sale catalogue.

We are very pleased with the selection of two and three year old velvet and trophy sires, as well as the quality line up of two year old high growth rate venison sires we have on offer. The three year old stags are currently residing on our Clinton farm and will be transported to Outram on sale day. We will also be offering a selection of yearling hinds at our sale. Details of these and photographs of sale animals will also be available at blackforest.nz, and on our Facebook page – [facebook.com/blackforest.nz](https://www.facebook.com/blackforest.nz)

As at the time of catalogue production the animals are still developing and while we are very pleased with how they are coming along we do expect to make some changes to the line up. Inclusions and exclusions will also be posted online.

Our sale deer are produced from our fully recorded herd of 850 hinds. We carry all male progeny on the studs' home property at Outram until yearlings, and retain 250 rising two year old stags from which we make our selections for potential industry sires and replacements for our own commercial herd. The three year old stags wintered in a mob of 140 on the Clinton farm and were selected out of that mob at velvetting time. Farmers can buy with the confidence in knowing these stags have been born and raised in a commercial environment and have been selected with intense selection pressure.

Our aim is to be breeding and offering stags with clean, heavy, correct, traditional velvet heads that go on to push out to be fantastic trophies. Most of the velvet and trophy bred stags catalogued would have cut well over 4kg of tidy velvet as two year olds. Those animals will certainly go on under good management to cut at maturity 8kg – 9kg of velvet.

These stags will also produce outstanding long wide trophies at maturity too when grown out – our commercial herd continues to produce the industry's finest line of trophies every year.

All of the animals offered for sale will be tested for Johnes disease pre sale and will be pre movement Tb tested as is required. Both our properties have a Tb herd status of C10.

We are confident you will be successful in selecting fine young Sires to enhance the future direction and profitability of your herd and wish you luck with your purchases. We welcome any pre-sale enquires and will be happy to show you the line-up.

We are very pleased to be holding our sale in the afternoon on the 14th, and will be offering snacks and refreshments pre-sale and a bbq meal afterwards. We are looking forward once again to catching up with friends, clients and new clients alike on sale day and hope you will be able to take the time to relax and enjoy our hospitality and refreshments after the sale.

*Kind Regards
Richard and Sarah*

Vendor Sale Conditions 2020

1. Black Forest Park retains a third party marketing condition on semen for the Lots offered in our 2020 Sire catalogue for a period of 4yrs transferable should the stag be sold within that period.
2. No animals, embryos or semen sold by Black Forest Park, or their germplasm, any subsequent progeny or germplasm, including the semen and germplasm of that progeny may be supplied to a third party without the written permission of the stud.
3. This condition does not affect normal commercial deer farming or stud farming or the normal sales of semen or embryos as it only applies to entities with the primary function of commercial semen/germplasm activities.
4. It is a condition of sale of any animals, embryos, germplasm or semen sold by Black Forest Park, that the purchaser agrees to include the following clause as a condition of any subsequent sale or gift of any animal, embryo, semen, germplasm or subsequent progeny or germplasm to a third party – “the purchaser acknowledges that it will not supply any animals, embryos, semen or germplasm to any commercial semen/germplasm marketing or sales entity, and will ensure that this clause is inserted as a condition of any sale or gift of any animals, embryos, semen or germplasm.”
5. The sale will be conducted by PGG Wrightson with the conditions of sale as set down by the Stock & Station Agents Association, a copy of which is exhibited in the office on sale day.
6. The deer are the purchaser’s property and risk at the fall of the hammer.
7. Warranties and Insurance are covered under separate headings.
8. Terms are strictly cash unless prior arrangements are made with the auctioneers. Accounts not paid within 14 days of sale shall bear interest, at current rate per annum from the date of sale.
9. The sale is conducted exclusive of GST.
10. Overriding commission is payable to non-participating companies and recognised independent agents introducing and accompanying purchasers to the sale providing prior arrangements are made with PGG Wrightson.
11. Sale animals in velvet will have velvet removed after the sale, which will remain the property of the vendor.
12. Intending purchasers are required to register with the auctioneers prior to the commencement of the sale.
13. Breed values represented are current as of 11 December 2019.

DISCLAIMER

PEDIGREE

Alonso

SHOWN AT 4YRS

Alonso is a very impressive Harrison son out of a Columbia hind with very good tops. With an impressive 470 inch head at two and being placed 3rd in the 2019 Rising stars at 576 IOA this stag is very special.

YEAR	WEIGHT (kg)	ANTLER
2		470 IOA
3		576 IOA

ALONSO

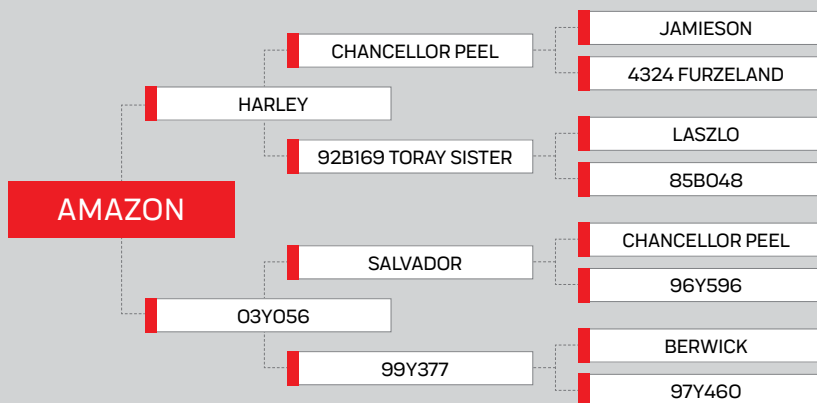

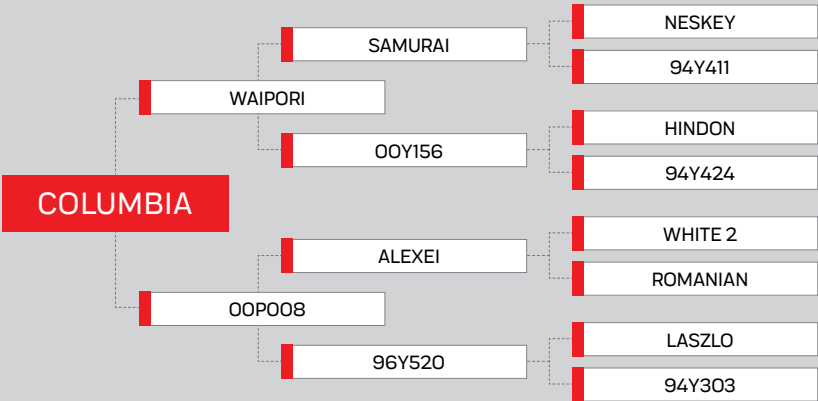

Amazon

SHOWN AT 9YRS

Great performance and Trophy genetics from this leading Sire. Amazon had an attractive and unique style of antler which follows through in his progeny.

YEAR	WEIGHT (kg)	ANTLER
5		550 IOA
6		575 IOA
7		587 IOA
8		590 IOA
9		630 SCI

YEAR	WEIGHT (kg)	ANTLER

3		383 IOA
4		484 IOA
6		550 IOA
7		640 IOA
8		655 IOA

Columbia

SHOWN AT 7YRS

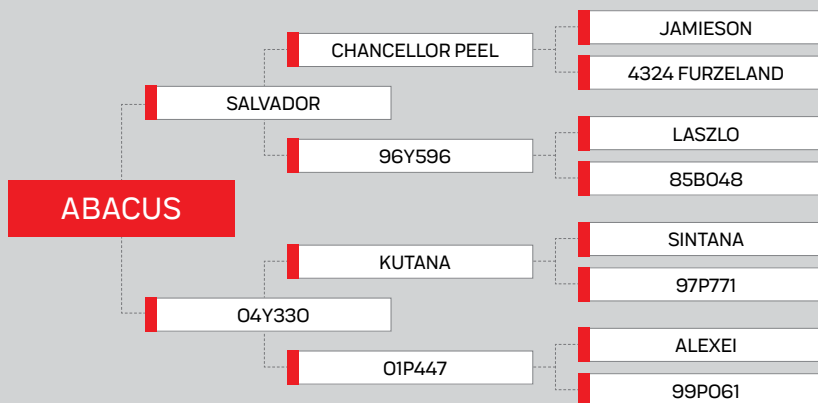

Columbia was a great stag, high scoring with great length and a lovely open style. We have had many high performing sons and daughters from him.

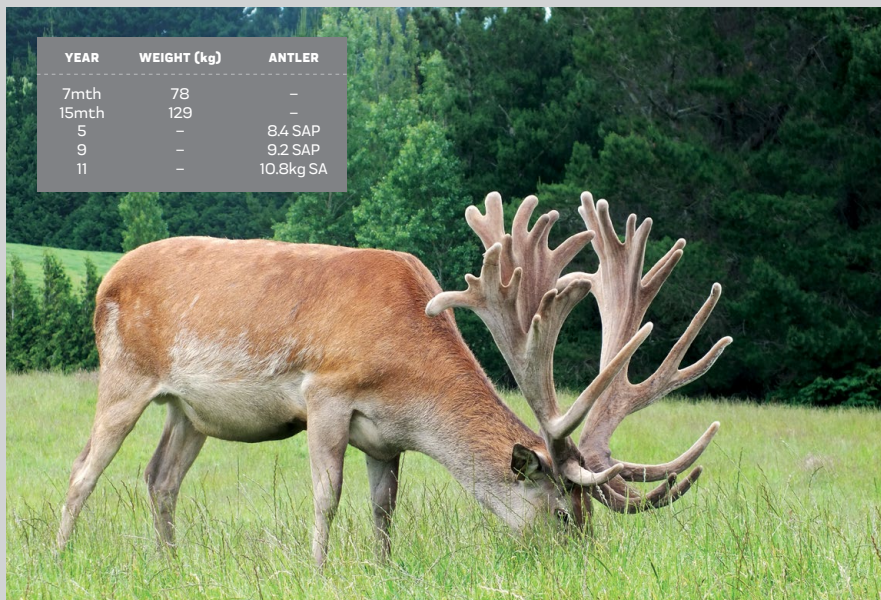

Abacus

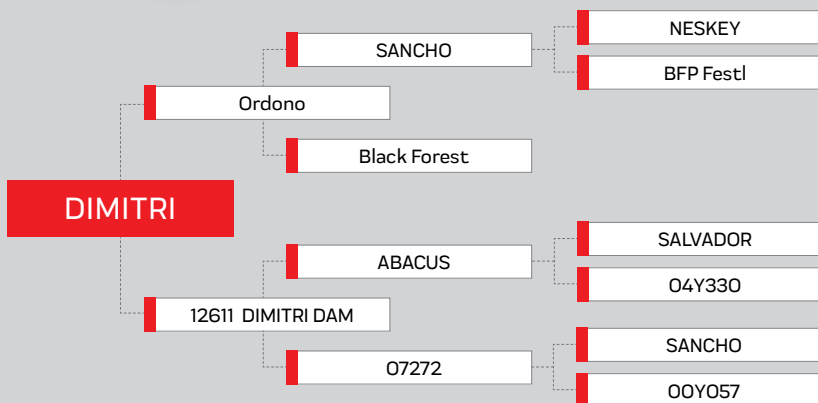

SHOWN AT 8YRS

Salvador over Kutana and Alexei, valuable genetics for Velvet and Trophy. With a well structured and very tidy velvet head, Abacus was the NZ Open Red Velvet Champion in 2015. We have semen available from this quality Velvet Sire.

YEAR	WEIGHT (kg)	ANTLER
7mth	78	—
15mth	129	—
5	—	8.4 SAP
9	—	9.2 SAP
11	—	10.8kg SA

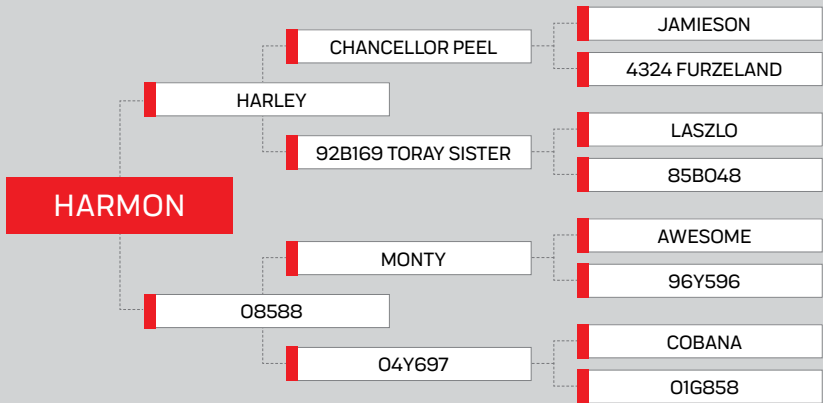

YEAR	WEIGHT (kg)	VELVET
3		10 OG1
4		9.5 SAP

Dimitri

4YR OLD VELVET HEAD SHOWN

Dimitri's 4 year old velvet head weighed 9.5kg and was placed second in the 4 year old section in the National Velvet competition in 2018. With correct placement and only very small snags to fault him his head is clean and very attractive. We were gutted to lose Dimitri in the rut this year, but look forward to seeing his progeny go on.

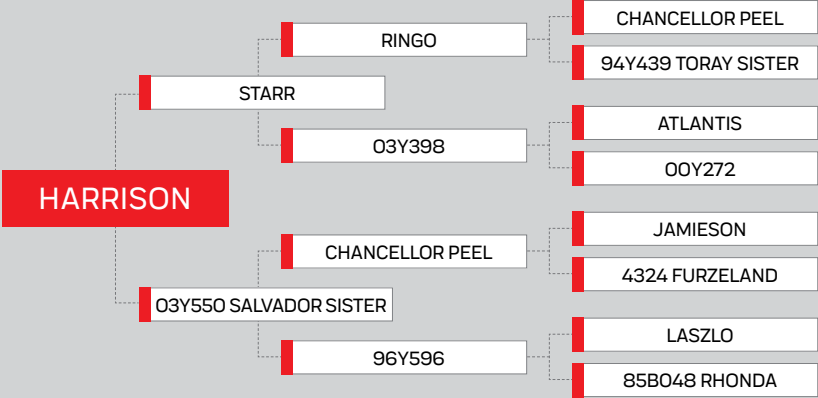

Harmon

SHOWN AT 6YRS

Harley over Monty over Cobana equals a Sire with weight and points. Harmon’s two and three year old progeny are looking great again this year proving his worth to us as a sire leaving young stags with good beam and tynes with length.

YEAR	WEIGHT (kg)	ANTLER
3		406 IOA
7		516 IOA

Harrison

SHOWN AT 5YRS

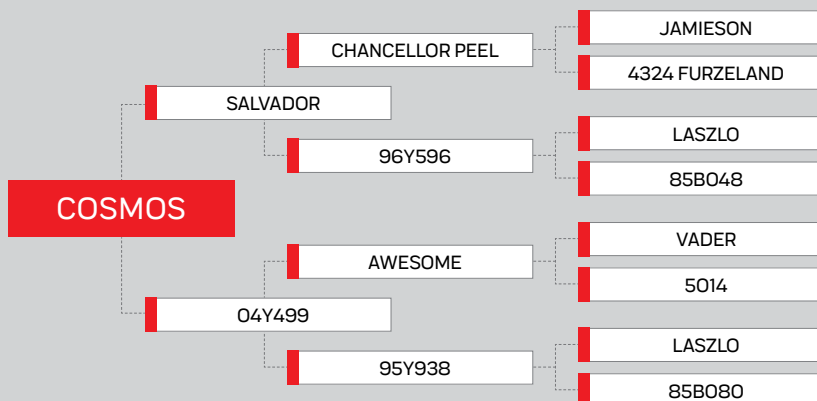

Outstanding son of Starr from a Salvador sister, he has a strong pedigree behind him and is impressive. Unfortunately damage to his left pedicle has compromised his own antler performance but his value as sire is compelling with sons like Alonso and Lot 6 he sure is passing it on.

Cosmos

SHOWN AT 6YRS

YEAR	WEIGHT (kg)	ANTLER
3		423 IOA
4		475 IOA
5		501 IOA
6		551 IOA
7		491 IOA

Now deceased, Cosmos was a very unique stag with his massive spread and a heavy beam that's clean and has correct placement. He was huge and leaving progeny with good velvet as well as trophy potential. Salvador over Awesome over a Cobalt sister – breeding just what the NZ Trophy Industry requires to stay ahead.

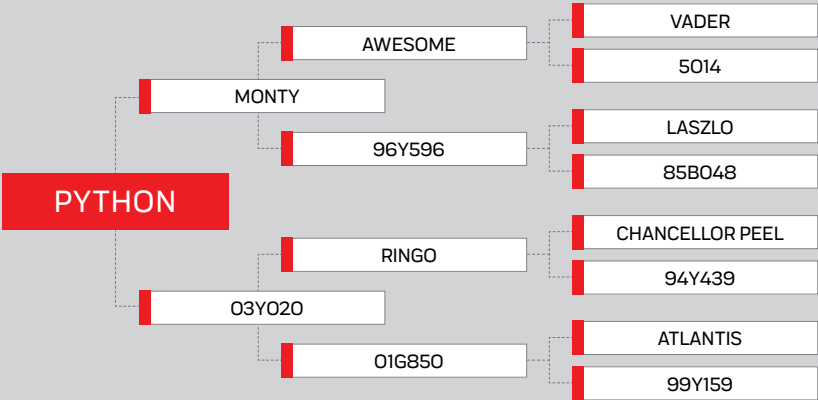

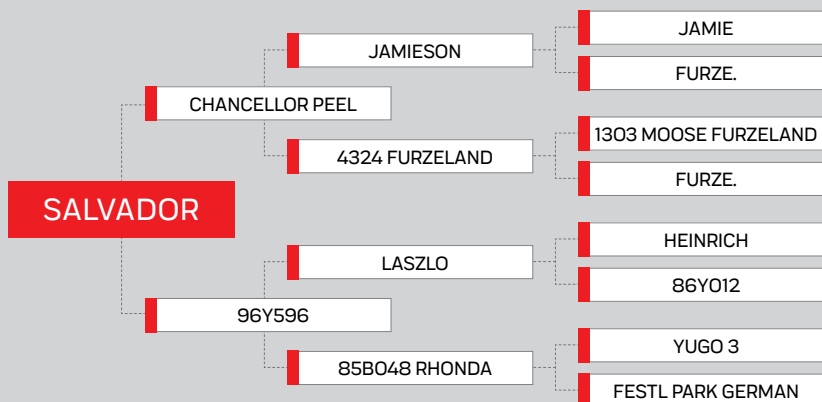

Python

SHOWN AT 9YRS

We had Python in our Sire group for a number of years, unfortunately now deceased he had a very attractive head that was heavy in the beam, clean with good length and spread. A true multipurpose sire for Velvet and trophy.

YEAR	WEIGHT (kg)	ANTLER
3		320 IOA
6		452 IOA
9		502 SCI

Salvador

SHOWN AT 7YRS 605 IOA

Salvador is a Trophy industry icon.
His offspring consistently look amazing with
real wow factor – great Sire.

YEAR	WEIGHT (kg)	ANTLER
1	138	
2	210	9.97 H/A, 360 IOA
3	258	13.6 H/A, 452.5 IOA
4		482 IOA
5		535 IOA
6		575 IOA
7		605 IOA

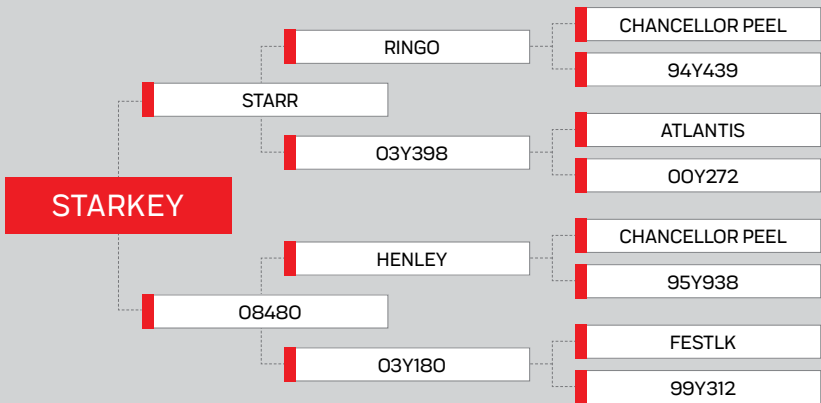

Starkey

SHOWN AT 7YRS

Outstanding Starr son almost identical to his Sire for age. With his symmetry, width, length and kickers he has a great style and presence about him. A strong pedigree for big wide outstanding trophy and velvet stags.

YEAR	WEIGHT (kg)	ANTLER
3		372 IOA
5		476 IOA
6		508 IOA
7		550 IOA

STARKEY

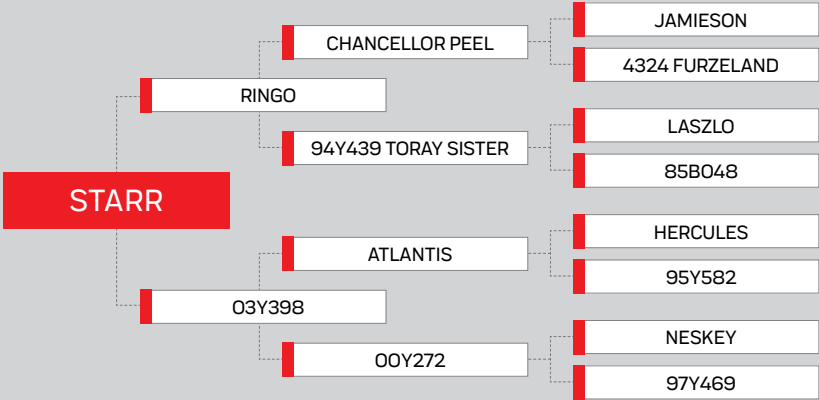

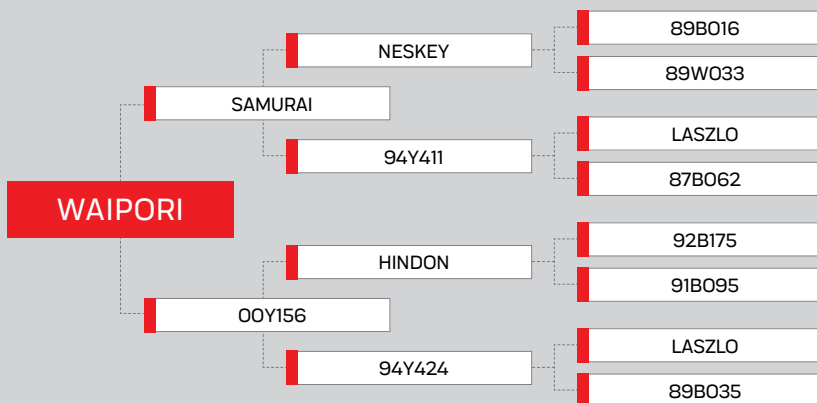

Starr

SHOWN AT 7YRS

Lovely Stag with wide head and long tidy tynes.
Starr is by Ringo and has easily surpassed his famous Sire at maturity, with a huge head.

YEAR	WEIGHT (kg)	ANTLER
3		397 IOA
4		453 IOA
5		475 IOA
6		525 IOA
7		566 IOA
8		585 IOA

YEAR	WEIGHT (kg)	ANTLER
6mth	98	
12mth	139	
2	231	
3	289	11.9 H/A
6		500 IOA 19.4kg
7		547 IOA 23.4kg
Est. 7		16kg SA2

Waipori

SHOWN AT 7YRS

Waipori was at the time the heaviest antlered red deer in the Industry cutting 23.4 HA as a 7 year old and 547 IOA. Amazing Stag with great performance for trophy, velvet and growth rates.

COMMENTS

Cataloged last but by no means least, lot 29 is high ranking for bvs among his peers and has a tidy velvet head yet to be cut.

WHEN YOUR ADVICE IS REALLY GOOD, EVERYONE LISTENS.

At FMG, we look after more rural New Zealanders than any other insurer. In fact, it's something we've been doing for 114 years now. So when it comes to offering specialist advice, like protecting deer sheds and farm buildings, we like to think we know what we're talking about. Ask around about us. Or better still call us directly on 0800 366 466.

We're here for the good of the country.

FMG
Advice & Insurance

For new deer farmers or farmers purchasing a new sire for the first time, we offer the following suggestions for the care and management of new and existing Sire Stags.

Remember your Sire Stags are the future of your herd, they carry the genetics for the future quality and production of your herd. Good stags are worth looking after!

Arrival of new stags

As deer develop strong social structures in their groups there can be a degree of stress involved in taking young stags from their mobs and transporting them to a new property and herd.

However this can be minimised with a little understanding and common sense.

Stags should be selected early and shifted to your property before the end of January if at all possible, to allow time to settle and adjust prior to the rut. Ideally the stag should be introduced to a small group of say 15 stags of his own age as soon as he arrives - this should be done in the yards rather than let the new stag out by himself (new stags should never be left in the yards by themselves). Alternatively the stag could be put with hinds, but young stags should not be put in with older groups of Stags or Spikers. This method will minimise stress & assist the stag to settle quickly in his new environment.

Mating Stags

Out with hinds for single sire mating by 10th March or if using Eastern Stags by the 1st of March to take advantage of their potential early mating and calving characteristics.

2yr stags should easily mate 25-30 hinds, 3yr stags 40 hinds, older stags approx 50 hinds.

A stag can often mate more hinds than this, but this may increase calving spread and body weight loss with a marked loss of production performance from the stag.

Mating mobs should always have a paddock between and yearling hinds should always be mated separately.

If using backup sires these should go out after two cycles or 36 days and the original sires go to their own separate paddock.

Stags out

Approx 10th May take stags out from the hinds one at a time and put to their separate Sires' paddock with good saved grass. Start with the dominant Sire first and work down to the youngest. This procedure helps minimise fighting and bullying of the younger stags.

Maintenance

Sire stags should be regarded as at least six stock units and well supplemented with high energy feed over winter, especially in the south.

A good level of care will help ensure the owner is rewarded with fit, healthy stags that can perform to their potential.

Lynne Rhodes AI specialises in the artificial insemination of Red Deer and Elk throughout New Zealand, Australia and North America.

- Trans-cervical AI technique in deer pioneered and developed by Lynne
- Experienced, proven deer AI technicians
- Detailed programmes provided with each booking
- Semen requirements arranged from any source upon request

Use the proven professionalism, skill, and experience of Lynne Rhodes AI Ltd to improve your herd genetics.
